GOFFS FRANCE SALES TALK

BERRY SNAPS UP PROMISING LYNDAAR

Ireland took home the top offering at yesterday's Goffs Vente d'Ete. Trainer Frank Berry, who seems to splash out on at least one decent horse here every year, went to €160,000 late in the day for **Lyndaar (Lot 171)** from Nicolas Clement's Chantilly stables. A very progressive four-year-old son of **Barathea**, winning his last two starts, the horse has been fourth in Listed class and has a flat rating of 91. He looks the type to progress again when sent jumping. His dam **Lobmille (Mill Reef)** has produced four Black Type performers in the Listed winner **Lobyist (Mtoto)**, Listed-placed **Hurricane Louis (Fabulous Dancer)**, American Gr.1-placed **Lone Bid (Priolo)** and Gr.3 scorer **Lil's Jessy (Kris)**.

Just a minute earlier Keven Borgel went to the round €100,000 mark to secure **Halkin Street (Lot 170)**. The horse managed to win on his only run at two and has few miles on the clock. In addition, the shrewd Christian Maillard always leaves plenty of gas in the tank and his new trainer will surely have him winning again soon, the flat seeming to be his immediate objective.

OGDEN EXPANDS HIS TEAM

Robin De La Garde (Lot 53), a three-year-old **Garde Royale** gelding presented by Haras du Feuillard (on behalf of Haras de Nonant Le Pin) was one of a good handful bought by Bertrand Le Meteyer on behalf Sir Robert Ogden. **Garde Royale** has the Gr.1 winner **Carling** and Oaks runner-up **Gazelle Royale** to his credit but is better known as a jump sire. The gelding is a full-brother to **Robin Des Champs** who was a Listed winning jumper. His half-brother **Robin Des Pres** was nearly as good, winning four times over the sticks and was placed in Listed class. A fine, big sort, he will surely be given all the time he needs to develop, having been bought on behalf of one of the UK's leading NH owners. He wasn't cheap but he was all quality, the hammer falling at €145,000.

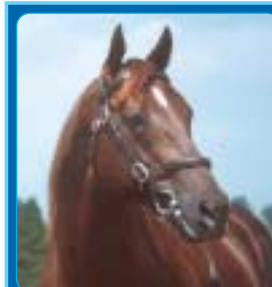

Shortly into the sale Le Meteyer went to €92,000 for **Lot 8**, a two-year-old colt named **Calideo (Video Rock)** from l'Elevage des Forges. He had a nice frame to grow into and hadn't yet been broken-in. His dam **Dona Cali (Dom Pasquini)** won three times over jumps and already has a **Mansonnien** three-year-old in training. His grandam **Dhaucali (Dhaudevi)** was also a useful jumper, having won three times in this sphere.

Turgeon was a sought after stallion, as demonstrated by **Lot 22**, a well-grown two-year-old colt consigned in

superb condition by Nicholas and Isabelle Simon's Haras des Marais. He is a half-brother to **Tropical de Cuta (Kadrou)** who was placed fourth at Auteuil in Listed company. Once again it was Bertrand Le Meteyer signing for Sir Robert Ogden, the hammer falling at €58,000.

PIPE SECURES MARCEL

French agent Hubert Barbe, who spent most of the day at Champion trainer Martin Pipe's shoulder, went to €125,000 for **Marcel (Lot 94)**, an AQPS four-year-old gelding from the Chantilly stables of Francois Cottin. The lightly-raced son of **Bateau Rouge** has just had two spins over hurdles, finishing second and then third at Auteuil. His dam **Une Risette** was a Listed-class steeple-chaser, who won ten times in total and has bred a winning jumper in the shape of the mare **Indecise (Cyborg)**.

HIGHFLYER BUSY

Surprisingly, Highflyer Bloodstock were often left as underbidders but did last longest when securing **Roi de l'Odet (Lot 148)** for the tidy sum of €80,000, David Powell signing the docket. From the stables of leading Sennones trainer Joel Boissard, the four-year-old gelding has a flat rating of around 80 having notched up five victories in 2003. For a son of **Grape Tree Road** he stays very well, having been placed over a mile and a half. He should make a decent hurdler as he also has plenty of speed, having won over a mile on two occasions.

Earlier in the session Highflyer paid the more modest sum of €65,000 for **Lot 77, No Regrets (Turgeon)**, from SCEA de la Placiere. The three-year-old gelding is out of the winning hurdler **Beluda (Beyssac)** and has all the credentials to make it in the jumping game coming from the family of Kingwell Hurdle winner **Valfinet**.

Most of the more expensive purchasers were destined for a trip across the Channel, but this wasn't the case with **Montecatini (Lot 97)** from trainer JPJ Dubois, this going to Swedish owner Erik Soderberg of **Mirio** fame. A late-developing son of **Adjayt**, the four-year-old AQPS gelding had just three runs on the flat before being sent straight over fences at four – he has been placed on both his starts in this sphere. Still a novice, it won't be long before he finds a winning opportunity. Having seen off all the usual players, Soderberg signed the ticket when the hammer fell at €78,000.

Trade was strong all day, this being reflected in the rise in average of 25.9%, and more significantly, a strong rise in the clearance rate to 76.7%. Not surprisingly managing director Eric Hoyer expressed himself more than satisfied with the day's work, particularly with the middle market which held up well especially towards the end of the session.

REVENUES TO ROLL IN FOR UK RACECOURSES FROM OVERSEAS

UK racecourses backing Racing UK are set for a financial windfall, following the successful sale of their TV pictures to a number of major overseas markets.

Phumelela Gold Enterprises (PGE), Racing UK's international media rights partner, has announced to the Johannesburg Stock Exchange that it has concluded exclusive agreements for the broadcast of racing from Racing UK's 30 courses to Sri Lanka, the Caribbean, Russia and its adjacent territories. These agreements, together with existing revenue producing operations, meet the guaranteed minimum revenues identified in the May 2004 agreement between Racing UK and PGE. Further international simulcasting agreements are anticipated in the coming weeks.

ENNIS TO CHAIR VAT WORKING GROUP

Jeff Ennis MP, Joint Chair of the Parliamentary All Party Racing Group, has been appointed to head a BHB Working Group which will seek a further renewal of the valuable VAT Registration Scheme for racehorse owners.

The scheme, worth some £20m to Racing and Breeding annually, enables racehorse owners to register their racing activity as a business for VAT purposes. The scheme, launched in 1993, was extended by Government in 1997 and 2002 and is next due to be reviewed by Customs and Excise in 2005.

SPRINT SIRE STATISTICS

DANZIG'S SUPERB JULY CUP RECORD

On the eve of one of world's greatest speed contests, the Darley July Cup, it is well worth looking at what have been Europe's best speed influences in the recent past. The table that accompanies this article examines the sires that have had 50 or more runners in the last five years in Europe. And it concerns itself with only those stallions that have recorded an average winning distance for their three-year-old and older progeny of less than a mile and half a furlong. Conceivably, there may be stallions just outside this cut-off point that are likely to come up with top speedsters but we have to draw the line somewhere.

If ever a race and stallion were made for one another, it must be the July Cup and **Danzig**. During his heyday – which has not yet concluded, I might add – Danzig has sired six winners of this Gr.1 sprint. In 1986 **Green Desert** was the first of the July Cup-winning Danzigs and he was followed by **Polish Patriot** (1991), **Hamas** (1993), **Anabaa** (1996), **Elnadim** (1998) and **Agnes World** (2000). Two of his grandsons – **Owington** and **Oasis Dream**, both by **Green Desert** – were successful in 1994 and last year. And as if that's not enough, he was also the grandsire of the 2001 winner **Mozart**, who was by the 1989 third-placed finisher **Danehill**.

Given such dominance, which is extended to many such sprints and mile races, Danzig – believe it or not has been quiet by his own exalted standards in recent years. Still, he is by far the best source of quality speed in Europe around at the moment, that is if you can get hold of one of his offspring. Such is his dominance that his percentage of Group winners for the period is three times that of his closest pursuer and his ratio of Stakes winners is nearly double.

In second place on our leaderboard is **Storm Cat**, who, as well as getting a top 10-furlong performer such as **Giant's Causeway** in Europe, is also quite capable of siring a **Catrail** or **Dietrich**.

The horse that is giving these two Americans most to do is **Pivotal**, a grandson of **Nureyev** another sire with a rich July Cup heritage, siring **Soviet Star** and **Stravinsky**. We have extolled the virtues of Pivotal here before, particularly his ability to produce high-class runners from lower grade mares. Pivotal's speedsters include **Kyllachy** and **Somnus**, but he is far from a one-dimensional horse as the likes of the fillies **Chorist**, **Golden Apples**, **Humoresque**, **Megahertz** and **Silvester Lady** – all winners at Group or Graded level at 10 furlongs and beyond – will attest.

The Nureyev connections continues with the fourth-placed sire – the top-class miler **Spinning World** – who is far better at producing milers rather than sprinters even though his stamina index is less than some good sires of sprinters, including **Green Desert**.

This veteran son of Danzig, who occupies fifth position on the leaderboard, won the July Cup and supplied two winners of the same race, plus many more talented sprinter/milers as well. Whilst it is true that unwavering patronage got him past some sticky points in his career, there are many glad to see that he did survive, none more so than those who have investing in his stallion sons in recent years. It wouldn't be at all surprising if **Green Desert's** best stallion sons end up producing runners with more stamina than he did.

In joint-sixth position is **Bahamian Bounty** and **Indian Ridge**. Followers of Bahamian Bounty could easily argue a case for a higher fee for this son of **Cadeaux Genereux**, particularly as his percentage of Stakes winners in Europe is almost one point better than his own sire. His best runner is the 111-rated **Naahy**, who picked up the seven-furlong Ballycorus Stakes recently. Indian Ridge meanwhile is in the twilight of his career and was the 'Pivotal' of his day. In the period under review he has got 28 Stakes winners and many of them have proved more than capable beyond their sire's average of 7.6 furlongs.

A newcomer to this table is **Fasliyev**. An outstanding sire of two-year-olds last year, the Fasliyev three-year-olds have looked less impressive this term, but his early start has meant that his ratio of Stakes winners is still better than **Cadeaux Genereux**, **Royal Applause** and **Ef시오**, three very capable sires.

Ahead of this, the Working Group will be tasked with increasing the number and value of sponsorships for owners, highlighting the benefits of the scheme to a wide audience and increasing awareness of the scheme among existing and potential sponsors. The Group will also complement the existing methods for policing the scheme, and ensure that registered owners are complying with the rules.

REPORT INTO NZ RACING INDUSTRY UNVEILED

A new report on the New Zealand racing industry has illustrated its importance to the economy.

The racing industry contributes more than NZ\$1.4 billion worth of economic activity annually and creates the equivalent of 18,000 fulltime jobs, a New Zealand Racing Board report released this week says.

The "Size and Scope of New Zealand Racing Industry" report released yesterday reveals that the direct economic impact of the racing industry is NZ\$445 million, with the industry itself sustaining over 9,000 fulltime jobs every year. When the flow-on economic impacts are included, the contribution of the industry rises to NZ\$1.4 billion, or about 1.3% of New Zealand's GDP.

As well contributing significantly to GDP, racing generates more than NZ\$60 million in tax annually from wagering, in addition to the taxes paid on wages and other expenditure.

The report shows the underlying strength of the industry is in provincial regions, where racing and breeding are mainstays of society and a dynamic contributor to local employment. In areas like Waikato, Southland, Manawatu-Wanganui and Canterbury, racing is hugely important.

The report also reveals racing's strong links with the community. More than 30,000 people are involved in the breeding, rearing and training of racehorses and greyhounds and another 10,000 participate through racing clubs and wagering. In addition, 330 community organisations share race club facilities or resources and over 240 community events are supported by race clubs.

More than 1 million people attend New Zealand race meetings each year, spending NZ\$54.7 million on betting, food, drink, transport and accommodation according to the report.

O: Razza dell'Olmo B: B Minty T: R Menichetti
1,700gns Doncaster October Yearling Sale
by Federico Barberini

Following a couple of second places, **Miss Kiss** had her day at San Siro. Hard ridden by Luca Maniezzi she defeated **Pagnottella (Dansili)**, a sure-fire winner in her next race, by a length and a quarter.

Miss Kiss is the third winner in Italy for her dam **Miss Bigwig**, a triple scorer at two over five furlongs. **Whittibag** and **A Bay Wisp**, both by **Whittingham**, raced in Italy for Razza dell'Olmo. The first broke his maiden after 33 races but gained 26 places for €56,929, the latter recorded three wins. The second dam **Jacqui Joy** foaled three winners including the smart sprinter **Ivory's Joy** who scored ten times, notably in the Listed Dubai Airport World Trophy.

Alzao – Asmita (Efisio)
O: A Folco B: Az. Agr. Rosati Colarieti T: F Folco
€32,000 SGA Selected Sale by Francesca Folco

Jake Aubrey, returning from a promising debut, landed his first win, looking like a man among boys. Under mild urging from Federico Branca he cruised home five lengths in front of **Kathy Pareyd (Late Parade)**.

Jake Aubrey is the first foal out of **Asmita**. A fine performer over the trips around a mile, Asmita won seven races, including the valuable handicap – Premio Soragna and finished fourth in the Listed Premio Carlo Chiesa. His breeder Giuseppe Rosati Colarieti bought back Asmita at the end of her career to continue one of the most important female lines of his stud. The second dam **Astorga (Relko)** won ten races, from two to four, including the Listed Premio Perrone, Ceprano and Torricola, finishing second in the Gr.3 Premio Buontalenta. Even though she produced some good winners, Astorga proved a slight disappointment as broodmare. She is a half-sister to the good handicapper **Aubert (Run the Gantlet)**, who won 22 races.

Asmita is in foal to **Desert Prince**. FRANCO RAIMONDI

€5,500 Tattesalls (Ireland) September Yearling Sale
by Bozzi Bloodstock

Vegas Time scored on her debut, beating the previous winner **Lady Aurora (Monashee Mountain)** by half a length, looking like a filly with room for some improvement.

She is the second winner for her dam **Pharmacy**. She closed her career with a second win at Redcar when dropped to a more realistic rating of 70.

Pharmacy's first winner is the sprinter **San Dany**, a full-brother to Vegas Times, who won five times.
